Allowance of Application # 09/813,670

 The following communication is in response to applicant's amendment received 18-January-2006. Claims 1 and 11 have been cancelled by this amendment.

Reasons for Allowance

2. The following is an Examiner's Statement of Reasons for the indication of allowable subject matter. The instant application is directed to a non-obvious improvement over the invention described in USP No. 5,668,995 to Bhat, the improvement comprising a method for using a Thin Client Sizing Tool to generate a Server Farm configuration solution for a proposed configuration of servers and associated support apparatus established at one or more sites, which will satisfy the requirement of a given customer's profile in regard to establishing the most appropriate number of servers for each Server Farm. This patentable distinction is included in each of the independent claims, nos. 4, 8 and 10. The art of record, either individually or in combination, fails to teach, suggest, or render obvious the useful, concrete and tangible <Thin Client Sizing Tool for generating a Server Farm configuration solution> having the corresponding structure which is disclosed in the specification and equivalents thereof at least at page 9, line 1 through page 37, line 26, and Figures 1A-3. In view of the foregoing, the claims of the present application are found to be patentable over the prior art.

Response Guidelines

3. Any comments considered necessary by applicant MUST be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the
